TAXES, DUTIES, FEES, Etc.

CUSTOMS DUTIES, Etc.

Levied under the Customs Tariff Ordinance No. 1 of 1930.

For the purpose of assessing the amount of any *ad valorem* Customs duty and for the purpose of the declarations and oaths which may at any time be required by law or regulation in relation to any question of such duty, the value of the goods for the purposes of duty shall be taken to be domestic value, as hereinafter defined, plus the extra cost of packing and packages for export, carriage to the port of shipment and all expenses incidental to placing the goods on board the ship, together with the cost of freight, insurance, and all other charges up to the time of importation into the Colony: Provided that in no case shall the value for purposes of duty be less than the cost of the goods to the importer at the place of importation.

For the purpose of this section "domestic value" shall, in respect of imported goods, be the market price at which at the time of exportation such or similar goods are offered for sale, for consumption in the country from which the goods are imported, to all purchasers in the usual wholesale quantities in the ordinary course of trade in the principal markets of such country, including the cost of packages ordinarily used in those markets, but not including any duties payable in that country.

Note.—Section 3 of the Customs Tariff (Amendment) Ordinance, 1932, which must be read in conjunction with section 4 of the Customs Tariff Ordinance, 1930, provides as follows, viz:—

"Notwithstanding anything contained in section 4 of the Principal Ordinance, the Commissioner shall be empowered, in respect of goods conveyed by air, to reduce the amount of the freight charges to be added to the value for purposes of assessment of duty to a figure of not less than one-fourth of the freight charges actually payable on such goods."

Such free period is subject to sub-clause (b) hereof.

(ii) Stacking Ground Storage.—Half the above charges.

Where a consignment of less than one ton is stacked part in shed and part on a stacking ground, the minimum charge applicable to the location of the larger quantity shall apply to the whole.

In the case of local deliveries, goods must be removed from the sheds and stacking grounds not later than six days after the posted arrival date of the steamship concerned. On the expiration of six days, storage rent will be charged as above.

(b) Entered goods for local delivery transferred from a transit shed or stacking ground to the Central Searchers' Shed before the expiration of the free storage period will not be given, on their return to a transit shed or stacking ground, the benefit of any unexpired free storage period. Importers will be allowed twenty-four hours after the examination of their goods in the Central Searchers' Shed in which to effect removal therefrom. On the expiration of such period and on the failure of the importer so to remove the goods they will be returned by the Administration to a transit shed or stacking ground at the importer's expense and will at once be liable to storage charges.

Unentered goods not removed by the importer from the Central Searchers' Shed after examination will be removed therefrom by the Harbour Authorities and taken to the transit shed or stacking ground at the importer's expense. Such goods will be given the benefit of any unexpired portion of the free storage period, calculated from the time and date the goods are taken to a transit shed or stacking ground. PARTICULARS OF TOWN PLANNING SCHEMES IN PROGRESS.

1. MOMBASA.

(i) THE MOMBASA TOWN PLANNING SCHEME, 1926, (enacted under the Town Planning Ordinance, 1919). Scheme applies to the Island of Mombasa with exception of the Old Town of Mombasa, an unplanned densely built over area of about 70 acres on the eastern shore of the Island at the Old Port of Mombasa. The scheme consists for the most part of pooling and re-distribution of holdings of land and re-adjustment of boundaries, for the purpose of facilitating the provision of adequate roads. The scheme is being carried into effect by the Mombasa Municipal Board as Responsible Authority.

Various details of the scheme are under consideration with a view to revision by means of amending schemes to be made under the Town Planning and Development Ordinance, 1931.

(ii) MOMBASA OLD TOWN IMPROVEMENT SCHEME. This scheme consists of the provision of two 25-foot traffic thoroughfares through the Old Town. Adjustment of plots and holdings to conform to the new street building alignments is proceeding gradually, as opportunity offers, without further expenditure.

(iii) MOMBASA MAINLAND NORTH (Mkomani). This Scheme, prepared in accordance with the Town Planning and Development Ordinance, 1931, for the control of development on the Mainland was approved and enacted in April. The necessary adjustments of boundaries were practically all given effect to before the end of the year.

2. NAIROBI.

(i) COMMERCIAL AREA. A scheme for this area was prepared in 1928. The area is about 700 acres, already largely developed. The scheme is being worked to as a non-statutory development plan subject to re-consideration as may be found desirable.

(ii) DUKE STREET AREA. This is an area of about 25 acres, the re-planning of which has become necessary owing to bad subdivision of properties and inadequate provision of streets. A scheme has been prepared and has been adopted as a non-statutory development plan. Considerable progress has been made by direct negotiations with plot holders.

(iii) BAZAAR AREA. A scheme for the control of development in the Bazaar Area and for the suppression of obsolete Sanitary lanes was in course of preparation by the Nairobi T.P. Authority.

City Square. The design for the City Square, the central feature of which was the new Supreme Court, was approved in 1930. The Supreme Court and also the new Municipal Offices were nearing completion at the close of the year.

. GENERAL.

Preparation of development plans and revisions of existing Township layouts is in hand for Nakuru, Kakamega, Kitale, Nyeri, Yala, Kisii, Thomson's Falls, and other Townships. Control of development is effected in accordance with provisional development plans already made or in course of preparation.

(3)—WEIGHTS and MEASURES

The Standards of Weight and Measure legalised for use in trade are the Imperial Pound, Yard and Gallon as defined by the Imperial Weights and Measures Act, 1878.

The authorised denominations of weights and measures are the same as those in use in Great Britain, but with the exception of the 100 lb. or cental weight and the addition of the 4½ gallon measure (5 American gallons approx.)

Metric weights and measures legalised for use in Great Britain by the Weights and Measures (Metric System) Act, 1897, may be legally used in the Colony.

The use of some of the older measures still prevails in the outlying districts, the principal being the pishi, equivalent to 0.65 gallon, the kibaba, equivalent to 26 fl. oz., the term korja is also in use for a score, used in measuring poles.

The term frasila is still in use as a commercial term, but is always qualified by reference to the Imperial pound. The usual equivalent is either 35 lb. or 36 lb. and varies in different districts and with different commodities.

The paraffin or kerosene tin made to contain 4½ gallons is in common use among the natives for transactions in grain, potatoes and coffee.

The use of Imperial or Metric weights and measures is enforced in the principal trading centres and a regular system of annual re-verification and inspection is carried out.

EXPLANATORY NOTES

1. The statistical year is reckoned from 1st January to 31st December, inclusive, and figures shown in these returns cover all imports and exports during that period.

2. The following are definitions of terms used in these tables :—

“*Domestic Produce*” means goods, the growth, produce or manufacture of Kenya and Uganda.

“*Home Consumption*” is a technical term in use, and does not imply that the goods have been actually consumed in Kenya or Uganda, but that they have passed into possession of the importer and that duty has been paid on that portion liable to duty.

“*Value*”.—The value of imports is given as the value “ex-ship” at the port of entry; such values exclude trade and cash discounts, but include freight, insurance and the value of the packages containing such goods, together with any commission paid.

For goods exported, the produce or manufacture of Kenya and Uganda “f. o. b.” Mombasa value is given while this value is also given for re-exports from open stocks. In the case of exports from bond, the value recorded is that at which the goods were originally warehoused.

“*Country of Origin*”.—Imports are credited, where possible, to the country in which the goods have been grown, manufactured or produced; in cases where particulars of origin are not available, the goods are credited to the country of despatch.

“*Country of Destination*”.—By “countries of destination” is meant the countries of destination so far as can be ascertained at the time of shipment. In cases where particulars of ultimate destination are not known, the goods are credited to the declared country to which they are consigned.

3. The summary tables referring to imports (Nos. I, V, VIII and XII) cover all goods entered for Home Consumption but do not include goods imported on Government account or goods entered for warehousing and remaining in bond; such goods being shown under their proper statistical headings in the detailed statement of imports (Table No. IX).

4. Goods entered for Home Consumption and subsequently re-exported are included in the import tables and are also shown in the tables of re-exports.

5. Separate particulars relating to imports and exports of goods declared in transit and transshipment are given. These are not included in the import and export tables.

6. Government stores, including material for Public Works, are recorded separately under their proper statistical headings and are shown in the detailed table of imports (No. IX).

7. Goods imported into bond are classified under their relative headings and included with the total imports in the detailed table of imports (No. IX) and goods exported from bond are recorded under their relative headings in the various re-export tables.

8. Goods imported as passengers' baggage are included in these tables as are also goods exported as ships' stores.

9. Fish caught in territorial waters are not included.

Concessions and Licences			General information regarding the industry and the possibilities of development
Concessions, cutting licences, etc.	No.	Area covered. Acres	
Sawmill licences	19	435,648	<p>No further cutting rights for timber exploitation were granted during the year, and the figures of acreage under licence to Sawmills remained the same as in the previous year.</p> <p>It is estimated that, apart from the areas being exploited at present, some 975,000 acres carry commercial timber, of which approximately half is at present economically inaccessible. This is a conservative estimate based on existing Forest Reserves, and it is probable that when further areas are reserved and as the survey of the Colony's timber resources proceeds, a much greater area will be found to be available for timber exploitation, as soon as trade conditions call for further development.</p> <p>At present little prospect of immediate improvement in the timber trade can be seen, the depression having continued during the past year with but little alleviation.</p> <p>The actual increase in timber sales by the Department amounted to 14% over those of the previous year; but the cut only amounted to slightly under $\frac{1}{2}$ million cubic ft. (in the round). The smallness of this figure will be realised when the fact that at least 6 times the amount could be exploited without any inroads into the Forest capital is considered.</p> <p>Steady progress, however, continues to be made in the attempts to find an outlet by the export of certain of the Colony's better timbers. Of these, East African pencil cedar and olive (musharagi) are the most promising, the former for the pencil slats, the latter for flooring. An olive floor was in 1934 laid in the new London Chamber of Commerce building and further floors are being laid in London by H.M. Office of Works, the material having been supplied through the E. A. Timber Cooperative Society and the Forest Department. E.A. camphor wood has been thoroughly investigated by the Forest Products Research Laboratory in England and negotiations are in progress for the appointment of selling agents in London for this and other woods. In this connection an officer was in England during the year, studying at the same time timber utilisation and timber trade methods in general.</p> <p>During the year Cedar pencil slats were exported to the value of £9,370 as compared with £12,480 in 1933, a decrease of 25%.</p>

Most of the fishing at present is done with boats and nets that are unable to face a rough sea and in rough weather fish is often difficult to obtain.

(5)—WATER POWER

The demand for electricity in the township of Nairobi and surrounding districts is met by the hydro-electric station on the Maragua River at its confluence with the Tana. This scheme is supplemented by the hydro-electric station on the Thika River. In order to meet future demands a commission is at present investigating the power possibilities on the stretch of the Tana River from and including the Maragua-Tana confluence to the falls at Seven Forks. There are a number of small schemes installed and operated by private landowners for working farm factories, principally on sisal and tea estates.

(6)—INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES

KENYA ALUMINIUM WORKS LTD., MOMBASA.—Manufacture of utensils from imported circles and sheets.

SOAP WORKS.—Principally at Mombasa, but there are many others scattered throughout the Colony. Total production 10-12,000 cases per mensem.

KENYA BREWERIES LTD., NAIROBI.—Beer and Stout. Production in 1934 approximately 140,672 gallons.

KENYA ORCHARDS LTD., MUA HILLS.—Jams and bottled soft fruits.

UPLANDS BACON FACTORY.—Bacon and Hams.

EAST AFRICAN SUGAR MANUFACTURERS ASSOCIATION.—Output of refined sugar in 1934, 8,722 tons.

TEA.—10 factories. Production of prepared tea in 1934, 3,607,768 lb.

TOBACCO - Output in 1934 of pipe tobacco 184 lbs.

In addition mention may be made of timber sawmills, flourmills, coffee cleaning works, gold mining, butter factories and minor creameries, native handicrafts, one cement factory grinding imported British clinker, the production of blood and bone meal fertilisers at the Nairobi Municipal Abattoir, expressors of commercial oils, aerated water bottlers and miscellaneous small foundry and engineering shops.

(7)—SUMMARY OF INDUSTRIAL DEVELOPMENT

AGRICULTURAL.

(1) ACREAGE AND DEVELOPMENT.—The total area under occupation by Europeans as at the 23th February, 1934, was 5 138,324 acres; of this area 556,182 acres were under cultivation, while it is estimated that 2,302,672 acres were developed under livestock.

(2) OCCUPATION.—The number of occupiers as at 23th February, 1934, is given at 2,027, a decrease of 75 from that of the preceding year. The average area cultivated per occupier is 274 acres, and the area developed under livestock 1,135 acres, equivalent to a total of 1,410 acres per occupier. On an average each occupier exported produce to the value of £763 during the year.

(3) CROPS.—The area under maize harvested during the year decreased by 51,069 acres. The area of wheat harvested increased by 4,887 acres. The area under Coffee increased by 1,851 acres and that under Sisal by 1,661 acres.

(4) LIVESTOCK.—The number of cattle in the possession of Europeans decreased by 1.16 per cent during the year. The number of pigs increased by 2.34%; while wool-bearing sheep showed an increase of 12.2 per cent.

FORESTAL

Although the general trade slump continued and the rains were on the whole unsatisfactory, the revenue nevertheless rose by 11 per cent.

The recovery in Timber Sales noted in 1933 was maintained and there were increases in Fuel Sales and Seed and Plant Sales by 14 per cent and 25 per cent respectively.
